In-House Printing Facilities

VistaLogics has extensive in-house printing facilities. Our digital printing systems allow us to print water-based, solvent and UV inks on almost any material. We specialize in fabric printing using the latest dye-sub technologies, offering fabric banners, table drapes and custom fabric installations up to 8 feet wide. Our in-house facility and expert color profiling allows us to deliver high quality controlled products.

Equipment

We have the latest computer graphics programs, state of the art printers and a 126" heat press
